ROADSHOW!**

CHS Energy Roadshow

Coming to a location near you!

Session overviews

CHS Hedging

CHS Hedging will help make sense of current refined fuels and propane markets and preview what to expect in the coming months. We will discuss practical hedging tools and how to leverage seasonals in an effective energy risk management program.

CHS Transportation

CHS Transportation specializes in the transportation of bulk liquid, petroleum, and liquefied petroleum gas (LPG) products. Learn how CHS Transportation offers the products and services that work for your company.

Lubricants

Hear from a Cenex® Lubricants expert on how your team can grow lubricants sales by using the 2020 Equipment Cost Share program. Understand how to package this program with other CHS offerings to build a compelling proposal for capturing new end-user prospects.

Refined Fuels

Learn how Cenex® premium diesel fuels combat the issues of today's modern diesel engines, including; heat, moisture, oxidation and contamination. Cenex premium diesel, a more complete additive package for a more complete burn.

CHS Propane

Discover new strategies to leverage the Propane Control Room. Take a deeper dive on developing a supply plan that includes summer lifting to build allocations for next winter.

Propane Safety

Gain valuable insights into the safe handling of propane from Ken Mueller, a safety expert with more than 25 years in the industry. Discover the recent changes for CETP training and hear about important steps your local emergency responders should be following.

CHS Energy Equipment

With the assistance of Husky Sales Services, CHS Energy Equipment will feature resolving nozzle operational problems and their underlying causes, and identifying the right nozzle for your application. In addition, discover new bulk storage solutions available through Energy Equipment.
