

RELIABLE ENERGY SOLUTIONS FOR FARM AND FIELD

Premium diesel fuels, lubricants, energy equipment and propane

ENERGY SOLUTIONS FOR EVERY PART OF YOUR OPERATION

Cenex® offers a complete portfolio of energy solutions to power, protect and optimize your entire operation. With decades of expertise across lubricants, refined fuels, propane, and energy equipment, we help keep your critical equipment running reliably, season after season.

RELIABLE PROTECTION, BUILT FOR DEMANDING WORK

Our premium lubricants are formulated with high-quality base oils and advanced additives, ensuring high-quality lubricants that meet or exceed industry standards. Cenex also offers on-road and off-road premium diesel fuels engineered for dependable power, performance and protection. And as a trusted propane supplier, we provide clean, cost-effective energy with reliable, year-round delivery to your shop.

EXPERT SUPPORT BEYOND THE PRODUCT

Cenex does more than supply energy products — we help you choose the right solutions for your operation. Our experts work with you in the field and at your operation, offering practical guidance on everything from bulk tanks and dispensing equipment to shop layout and product recommendations. The result is improved efficiency, reliability, and safety across your operation.

CHS DIFFERENTIATORS

#1	The cornerstone energy brand of the nation's largest ag cooperative
95+	Years supplying precisely formulated energy products
17	Cenex lubricant terminals throughout the Midwest
18M	Production capability of lubricants annually
3x	All oil lubricants are triple-tested for quality and consistency
2	CHS-owned refineries in Kansas and Montana
2,000+	Miles of pipeline and a network of more than 250 third-party terminals and finished product storage facilities
920M+	Gallons of Cenex premium diesel fuels distributed to ag, construction and fleet customers
150	Propane terminals in 44 states to help you plan your supply needs

CENEX® PREMIUM PRODUCTS

ENERGY SOLUTIONS THAT HELP KEEP YOUR OPERATION MOVING

With a robust energy portfolio, Cenex is your one-stop solution for all your energy needs—helping simplify operations and providing access to quality products that perform when it matters most.

PREMIUM DIESEL FUELS

Formulated for optimal power, performance and protection.

- Keep engines running cleaner, longer with an advanced, aggressive detergency package
- Improve engine performance with a total water management system
- Help protect equipment from contaminants with exceptional filterability
- Improve power and fuel efficiency through a more complete fuel burn

PROVEN PREMIUM LUBRICANTS

Engineered with high quality ingredients and advanced additives.

- Helps protect against heat, rust, and wear to extend equipment life
- Triple tested to ensure quality and consistency
- Superior oil durability that helps provide longer engine life
- Meets or exceeds tough industry specifications

RELIABLE PROPANE SUPPLY

Clean, dependable energy for heating and power needs.

- Reliable energy supply for home, farm or shop operations
- Virtually unlimited shelf life that will not degrade over time
- Propane and renewable propane help lower carbon emissions
- Portable energy source ideal for heating remote locations

INDUSTRY EXPERTISE. DEPENDABLE SUPPLY. LOCAL SUPPORT.

FUEL TANK

Cenex® Ruby Fieldmaster®		
• 40% more effective at breaking down harmful engine deposits¹ • Restores fuel economy up to 5%² • Restores power up to 4.5%²	• Up to 75% reduced filter blocking² • 2.5x more effective at cleaning up and removing injector deposits¹	• 4.9% Reduced diesel exhaust fluid (DEF) consumption³ • 30% reduction in soot emissions³

ENGINE

ENERGY EQUIPMENT SOLUTIONS

To meet the demands of your unique operation, we offer an extensive catalog of lubricant, DEF, propane, and petroleum equipment. Choosing the right energy products and proper inventory storage are key factors in maximizing your shop performance. With a vast network of partners and warehouses nationwide, our distributor network can deliver the energy products and equipment you need to keep your operation running smoothly and efficiently.

BULK FUEL TANK

- Convenience of having bulk fuel stored on site
- Avoid costly and less efficient fueling alternatives
- Offers flexible buying options

USED OIL DRAIN

- Easily collects used oil during vehicle maintenance
- Proper disposal of used oil
- Prevents slips and spills
- Enhances safety

RADIANT CEILING HEATER

- Clean burning heat source
- Cost-effective and low-maintenance
- Space-saving solution

DOUBLE-STACK TANKS

- Easily monitor fluid levels
- Distinguish between fluids
- Space-saving, stackable design
- Increase shop organization
- Minimize safety hazards and contamination risks
- Supports bulk product purchasing

PROPANE TANK

- Clean burning energy
- Reliable on-site storage
- Efficient shop and water heating solution

TANK MONITOR

- Trackable data
- Provides consumption history
- Minimal cost
- Critical fill alerts
- Optimize operations
- Peace of mind

BULK DEF TANK

- Maximize shop space
- Significant cost savings
- Safe and secure storage
- Protects fluid from contamination
- Prevents corrosion
- Efficient refilling with pump

IS YOUR SHOP SET UP FOR SUCCESS?

Uncover ways to improve workflow, storage and equipment support.

EFFICIENCY

- Is your shop layout helping or slowing work?
- Where is time being lost?

SAFETY & ORGANIZATION

- Are products clearly labeled and safely stored?
- Is clutter creating safety or workflow issues?

PRODUCT MANAGEMENT

- Could product consolidation simplify operations?
- Are usage and inventory trends easy to track?

EQUIPMENT SOLUTIONS

- Are products easy to store, access and dispense?
- Would bulk storage help save time or reduce handling?

UPTIME & GROWTH

- Is your setup ready for future needs?
- What improvement would make the biggest impact this season?

TOOLS AND RESOURCES TO HELP YOUR BUSINESS SUCCEED

Cenex® provides tools and resources to help you make confident product decisions, support your operation and keep your business moving forward.

DID YOU KNOW?

While OEMs may recommend specific lubricant brands (often their own), according to the **Magnuson Moss Act**, as long as you are following OEM standards, regardless of brand, you do not need to use your equipment manufacturer's fluids. Cenex fluids are designed to meet equipment manufacturer's specifications.

CENEX EQUIPMENT LOOKUP TOOL

This online tool makes it easy to match your equipment's OEM specifications with the right Cenex lubricant, helping you choose products with confidence. With third-party validated data, you can quickly find the proper engine oil, transmission fluid, gear oil, hydraulic fluid, or grease for your on-road and off-road equipment.

➔ Visit cenex.com/equipmentlookuptool

CENEX TOTAL PROTECTION PLAN® WARRANTY

The Cenex Total Protection Plan® is an industry-leading fuels and lubricants warranty that helps agriculture customers protect valuable equipment with confidence.

- Exclusively use Cenex lubricants and Cenex premium diesel fuels
- Covers new equipment for up to **10 years or 10,000 hours** and used equipment for up to **8 years or 8,000 hours**
- Covers tractors, combines, and sprayers

➔ Enroll your equipment at cenex.com/tpp

REFINED FUELS SAMPLE KITS

Understand your fuel quality and properties, while supporting proactive tank maintenance.

LUBESCAN® USED OIL ANALYSIS

Monitor the health of your equipment to detect potential issues early, support proactive maintenance, reduce downtime, and extend equipment life.

➔ Order LubeScan® used oil analysis and refined fuels sample kits through your local Cenex representative.

CONTACT YOUR LOCAL CENEX SALES REPRESENTATIVE TO LEARN MORE.

ENERGY SOLUTIONS FOR ALL YOUR EQUIPMENT NEEDS

This guide will help you determine energy products needed to optimize the power and performance of your agricultural equipment.
